### THE ZERO RACE ADVENTURE - 80 DAYS AROUND THE WORLD WITH RENEWABLE ENERGIES

Jules Verne's dream to go around the world in 80 days became a reality a long time ago, but is it possible to make a tour around the world in 80 days with emission-free vehicles? Five Teams from four continents are taking up the challenge. On 16 August they will start with their electric vehicles on the longest and greenest race of all time: the ZERO Race.

## THE COMPETITION OF FUTURE VEHICLES

This is not a race about speed. This is a race to make the planet greener and a better place to live for future generations. This is a race to make small, efficient vehicles popular. The team with the smartest, most efficient, most reliable, most usable and most popular concept will be the winner

|  |                       |            |           |

| Team   | Team                  | Team       | Team      |
| Powerplaza   | Oerlikon Solar Racing | Vectrix    | TREV      |
| 23 points (drop out in Berlin due to technical difficulties) | 165 points            | 116 points | 80 points |
| date:  | 5. October            |            |           |

## A GREEN EVENT

The aim of the ZERO Race is to be a truly zero emissions

Book Louis as a Conference Speaker

## THE TRUE PIONEERS

This is not a race of different teams against each other. There is only one team, and that's the ZERO Race team. We help each other and do the race together, in sportsmanlike atmosphere, for a greener future. See who these pioneers are

WANT TO SUPPORT THE ZERO

event. See how we want to achieve that ➡

RENEWABLE ENERGIES

All ZERO Race cars are powered by clean, renewable energies. See how this works ➡

PROTECTING BIODIVERSITY

This is a race to raise awareness for Biodiversity Protection. By giving each car the name and the logo of a species which is threatened by climate change, we want to show that electric cars and renewable energies provide a solution to help protect biodiversity. The United Nations declared 2010 as the International Year of Biodiversity. ➡
